

PLECS WORKSHOP

Process-in-the-Loop Simulation and Advanced Modeling of Power Electronic Systems
Zhejiang University, July 1, 2016

08:30-09:00	Registration
09:00-10:30	Introduction to PLECS <ul style="list-style-type: none">✓ General use of PLECS Blockset & PLECS Standalone✓ Instantaneous switching✓ Variable and fixed step operation Exercise: Model a switched-mode power supply
10:30-10:45	Break
10:45-12:00	Introduction to Thermal, Mechanical, Magnetic Modeling & Simulation <ul style="list-style-type: none">✓ Switching & conduction loss descriptions✓ Combined electrical-thermal simulation✓ Permeance Capacitance Analogy Model Exercise: Thermal modeling of a buck converter
12:00-13:00	Lunch

PLECS WORKSHOP

Process-in-the-Loop Simulation and Advanced Modeling of Power Electronic Systems
Zhejiang University, July 1, 2016

13:00-14:30	Principle of a Processor-in-the-Loop simulation <ul style="list-style-type: none">✓ Integration of PIL✓ Integration of the PIL framework into an embedded project✓ Setting up PLECS for PIL Exercise: PIL simulation for a buck converter
14:30-14:45	Break
14:45-16:00	Hardware-in-the-loop simulation RT-Box Demo
16:00	End of Workshop
Contact	Infomatic Pte Ltd, +86-75586243782, info@infomatic.com.sg
Venue	Room 408, Electrical Engineering Building, Yuquan Campus
Address	No.38 Zheda Road, Xihu District, Hangzhou 310027
